LOTUS SPA EXPERIENCES

Indulge in some selective treatments exclusive to the Myoka Lotus Spa.

GROUND YOURSELF

After a long flight or a heavy week at work, your body and mind need a helping hand to recover. This is the perfect treatment to truly awaken your senses. Start with an energizing body polish to remove dead skin cells and aid regeneration. Then relax in an aromatic, blue lagoon bath, leaving your skin smooth and silky. A firm Myoka Lotus massage eliminates tension and relaxes your muscles. To complete your experience, pressure point on specific points of the feet will be applied to ensure a physical change in the body.

MESOTHERAPY

A painless, efficient, noninvasive and needle free treatment. By the use of electrophoresis technique, "bullets" with amino acids, Vitamins and antioxidants are delivered directly into the mesoderm layer.

FACIAL ULTRASOUND / CAVITATION

Cavitation combines the effects of gentle, ultrasonic peeling and ultrasound frequencies, this treatment lightly removes the outermost layer of the skin, increases collagen production, sterilises the skin and accelerates the healing process. Ultra sound transports active ingredients deep down into the dermis, boosting the vital oxygen supply to give new skin cells a nutrition boost and a longer-lasting, plumper structure.

RADIO FREQUENCY FOR THE FACE & BODY

A safe, noninvasive but highly intensive treatment for tightening the skin, restructuring the contour of both the face and body, and treating cellulite. This technology gives intensive heat to the localised working area, stimulating the skin blood circulation causing collagen and elastin production to regenerate and contract. Using metal probes we introduce high temperature to the skin, heating up the subcutaneous tissue causing collagen and elastin fibres to regenerate and reproduce.

FACIAL MICRO DERMABRASION

Micro dermabrasion is the most popular and highest volume facial rejuvenation procedure in the world. It gives the skin a micro massage, increasing circulation therefore it has a positive effect on skin's condition, firmness and thickness. After treatment skin is left visibly improved, wrinkles flattened, skin brighter and more glowing, scar and discolouration are less visible. Diamond Micro dermabrasion provides excellent skin preparation to absorb any products used directly after treatment.

Simple non-surgical procedure administered by our Aesthetic Doctor. This procedure relaxes the muscles and smooths fine lines and wrinkles with no down time or side effects.

Eur P.O.R.

DERMAL FILLERS

Injectable cosmetic wrinkle fillers are soft tissue fillers approved as medical devices to help fill in facial wrinkles, restoring a smoother appearance. Most of these injectable wrinkle fillers are temporary, because they are eventually absorbed by the body. Dermal fillers are being used more and more to help reverse the changes associated with ageing. Dermal fillers provide a natural appearance and added plumpness to the skin.
